"Lyfeld? I know a couple of fellows back at the base named like that." Your heartbeat quickens when you hear that and can't help but smile widely under your gas mask.

He bursts out laughing. "Ha! Just kidding. The majority of the population died when the bombs fell. Those who were lucky enough to have their own, or could run fast enough to the nearest, of course, packed shelter, survived. I guess I don't have to tell you how rare it was to have your own shelter. Even I had to, you know, kindly ask my neighbour to let me in. Because I'm just that nice example of a human being. Don't lose faith though, they might still be alive. Or not. Oh well." He shrugs and keeps laughing as you walk through a dark alley. You clench your fists and your smile fades quickly. Your feet gets stuck every now and then in something sticky, but you still manage step over a couple of rotting animal corpses. Some of them look bigger than they should be.

He glances back at you again. "Watch out with that slime under your feet. Don't let it touch your skin. Let alone its owner, or you might end up like them." He chuckles then peeks back at you. "No hard feelings right? It was a harmless joke. A good one at that, you must agree."

"It will be funny when I kill you."

"Yes it was."

Remain silent.

Lovely music.. Off to a good start. Give this one a look in 6-12 months.. This is a solid arcade racing game. I gave season mode a try and it was pretty fun. Driving physics are better than I expected and the AI drivers were pretty good themselves. I might try the online trials later but its pretty good for the price and is definitely worth it.. Pretty good stuff. Nothing to complain actually.. Great USP: vertical gameplay, a lot of ways to aproach enemies, ginormous open levels with almost no skybox, you can walk or climb pretty much everywhere you see. But the execution lacks. Get it in a bundle or on sale.. I Love the game ive been waitin for early access but damn its way to short especially for the price,i just hope that buying early access will grant me free dlc when it comes out

. Bought the game for my GF. tried it my self was so confused first time playing any guild games.. dumped my gf for being smarter than me. 10/10 love to see random gangbangs at town in first 2 mins

I recommend you buying this, it's a really good game. After about 2 hours of game play.... I'm really enjoying this game! Controls feel very natural, and responsive. Levels are fun and difficult at the same time. You should pick up this fun indie game!. I learnt more about mushrooms than i did in school.. I only bought this to hear Zaxtor99's sexy voice in the first chapter.

11/10 would listen again Kreygasm

. Really fun game, trading seems all cool, building a city is fun only downside I can see is their is no music.

Its worth its cost and its got some hard story and if that's not your sort of thing then you can bust the sandbox mode.

One cheeky thing is that if you want to play the sandbox mode you do have to play the story to unlock the necessary buildings but the acts are worth ago and once you have done act one out of tree you can have a sweet time on the sandbox minus a few buildings.

Overall really good building/trading game and there really isn't that many about that are worth ago compared to the port royal series.

8V10. More fun than the videos even let on, I mean... you can take control of the machine gun turrets and manually mow down the enemy hoardes its awesome. Simple, fun, everything I ever wanted in a strategy game. <3. Very nice. Two sets of puzzles the "basic" (easy) and the normal (the original one) give dozens of hours of fun.. Aqua Moto Racing Utopia strikes a good balance between realism and arcade-like controls, with the interactive water system providing a lot of replayability and unpredictability..

This is a good game and you can even style your own pizza

And good childhood
